FIBER OPTIC CABLE BLOWING MACHINES

Produced by KOSMAK

ABOUT US

Our company ever since its incorporation in the telecommunication sector has been operating the machine. Our company since its establishment until the superior service quality and customer satisfaction continues to be one of the leading companies.

Our Vision

Profitable and sustainable growth to ensure long-term customer and employee satisfaction, and satisfaction as well as aims.

Our Mission

High standards, quality service in the time of our customers to maximize customer satisfaction and respect the rights. Our products, solutions, after sales service we provide our customers with reliability and high business ethics as the first choice to be a company that creates value for our employees and our customers.

Our Quality Policy

The fact that customer satisfaction as a priority action in this direction is to provide products and services.

For this reason,

- *Complying with the terms of the quality management system, to sustain activity.*
- *Ethics, values, respect and team spirit, and the potential to increase customer satisfaction.*
- *Improve the competitiveness of the industry by continuously improving staff satisfaction and education.*
- *Our employees, customers, suppliers long-term commitment to our organizations and institutions to increase non-cooperation.*
- *The provisions of relevant laws and standards to export to the framework.*

BLOWING MACHINES

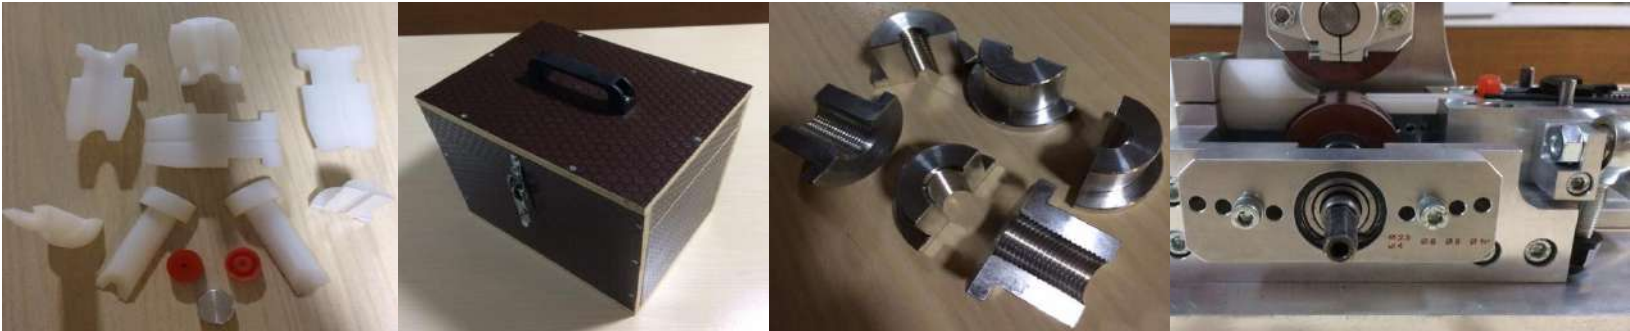

FIBER OPTIC CABLE BLOWING MACHINES

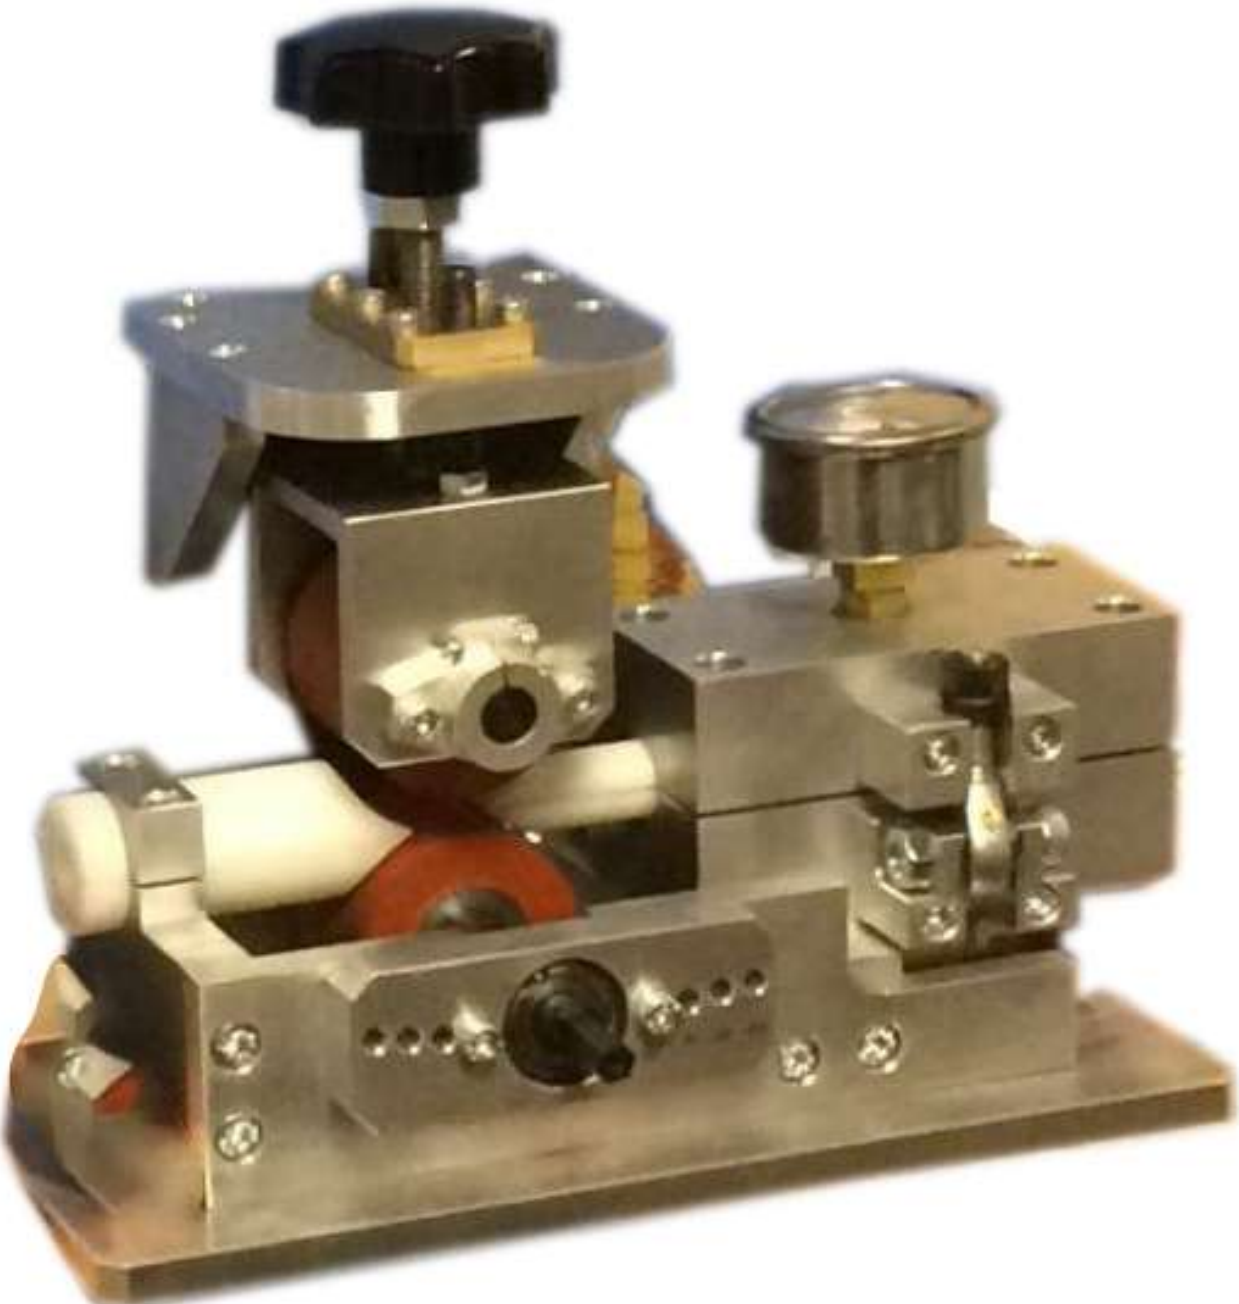

UPCOM

The Faster. The Better.

CABLE BLOWING IS OUR PROFESSION

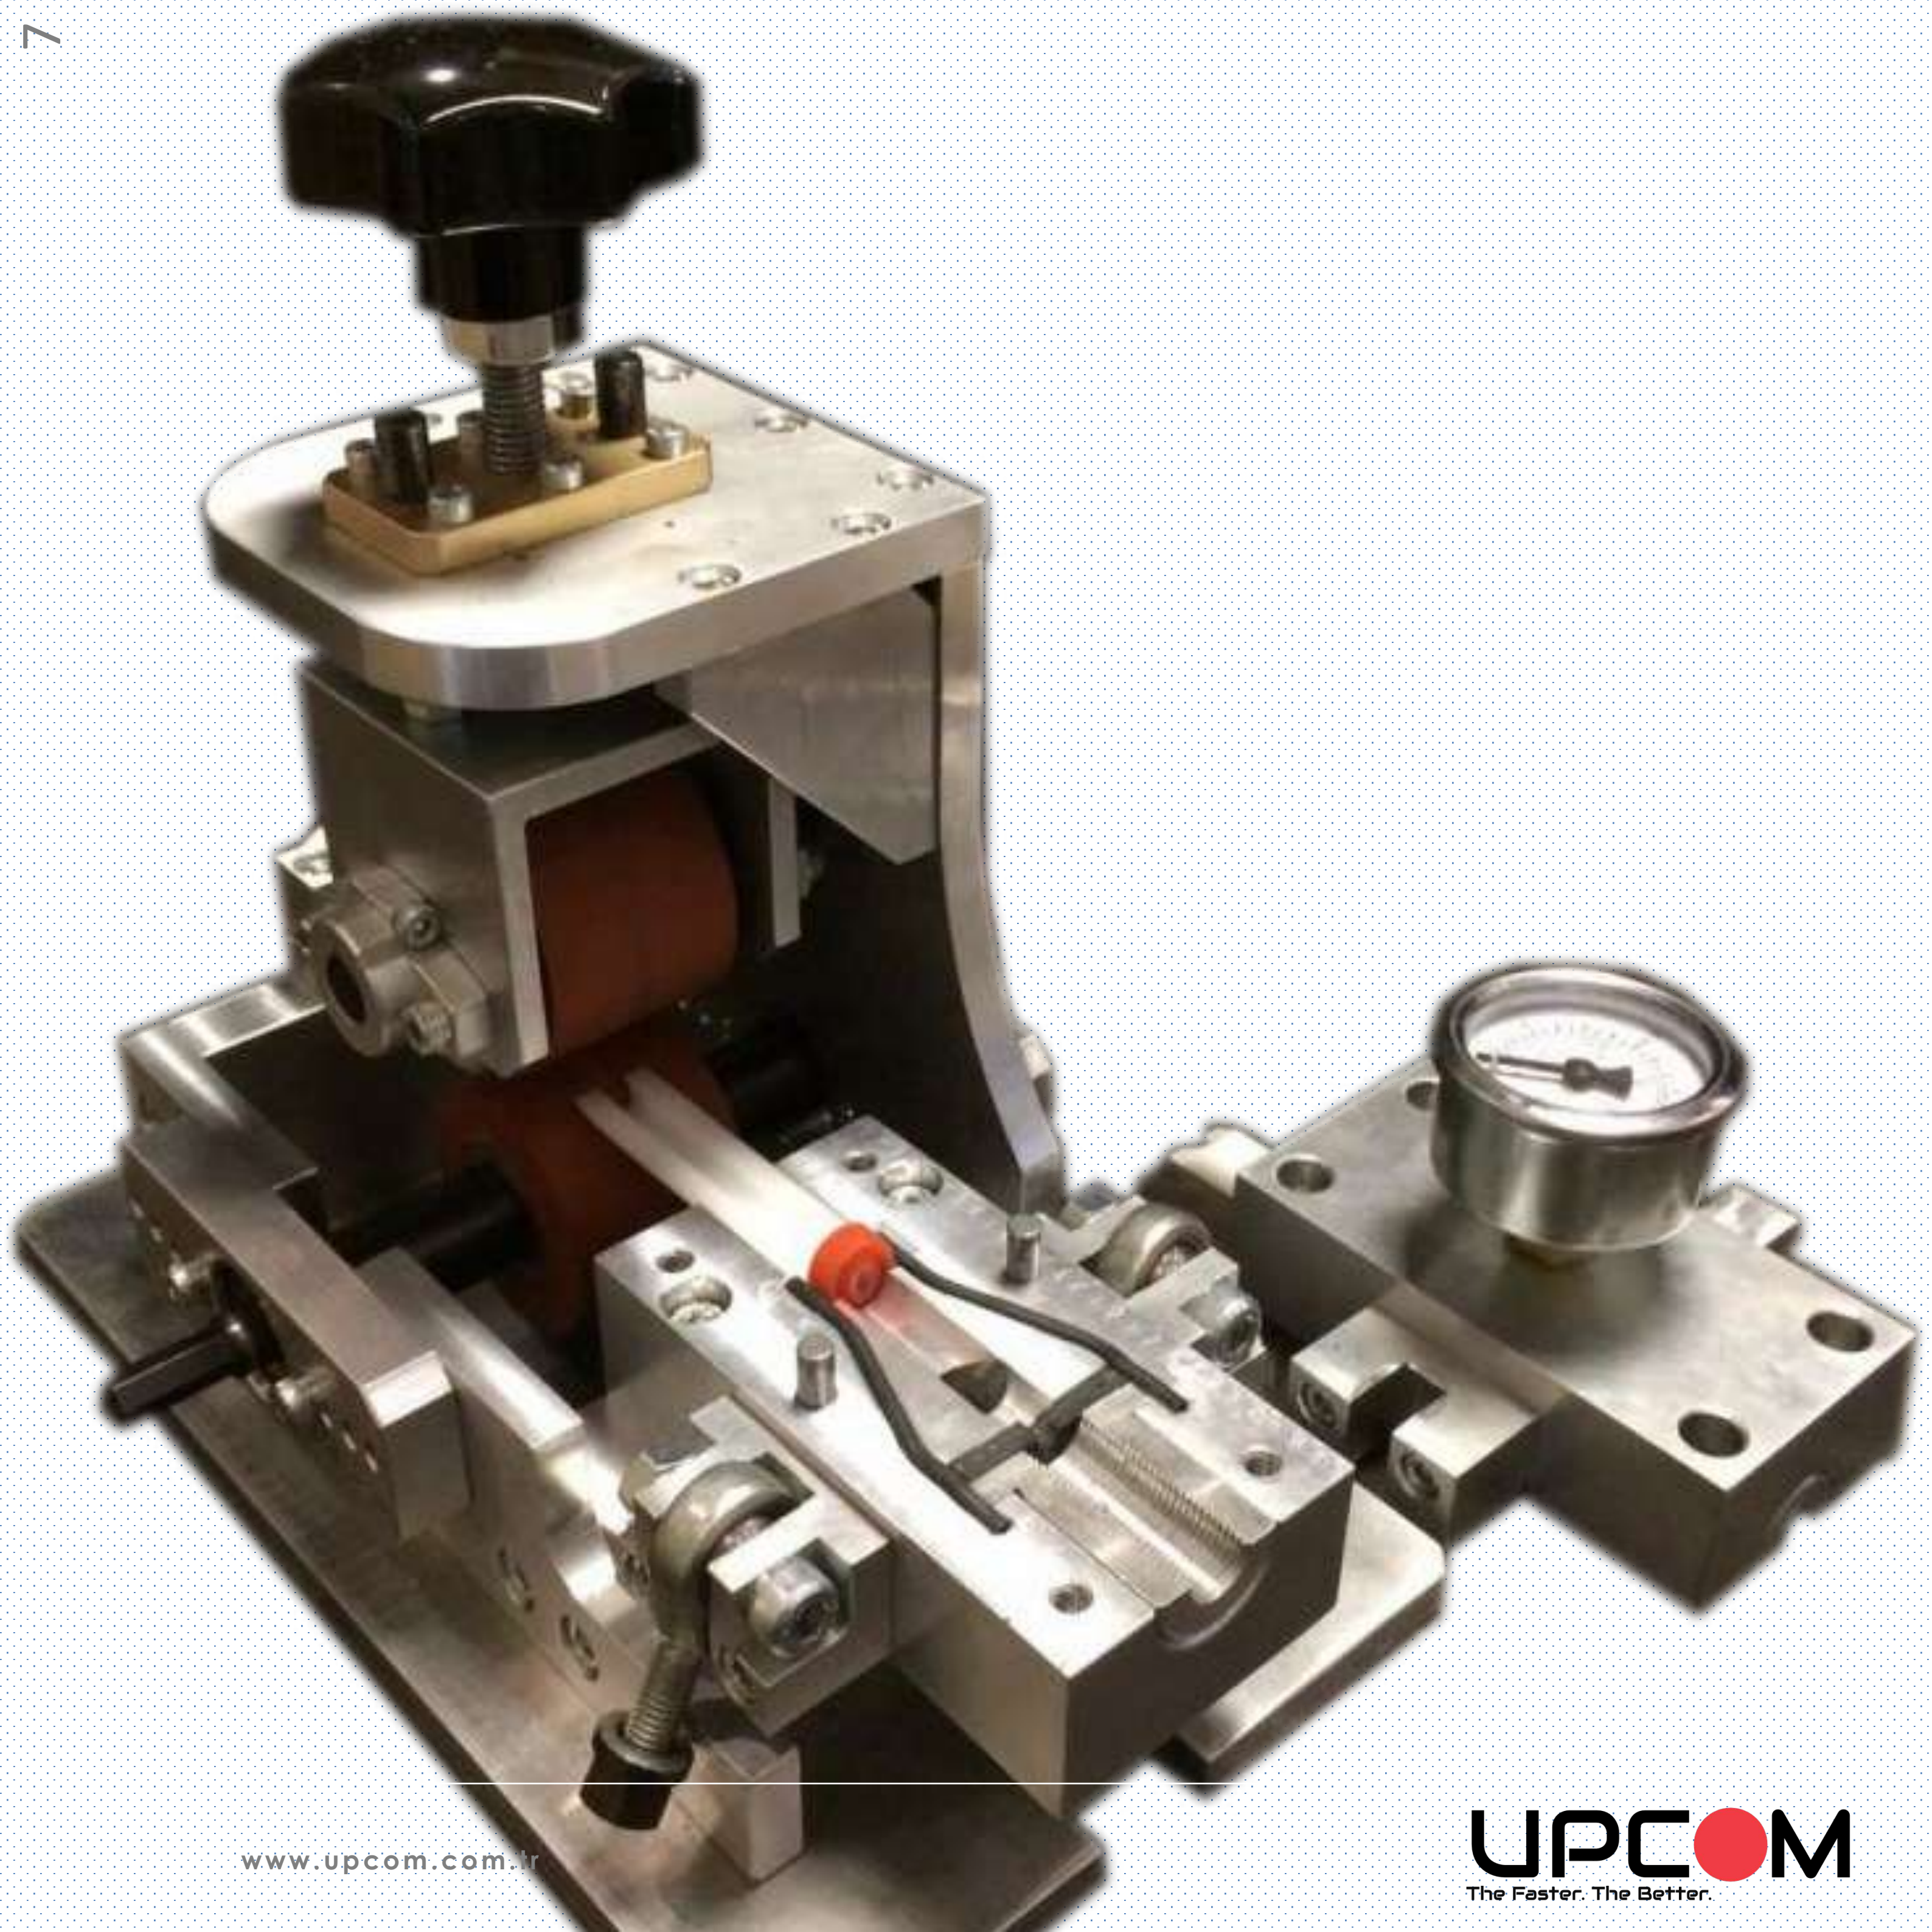

UP-Drill is a cost advantage cable blower machine is designed to fit fiber optic cables into telecommunication ducts and micro ducts by using of drilling machine. So there are several effecting factors in case of order one. Easy to use and simple design for micro ducting. And fiber cable diameter range is from 1mm to 5mm. Now you can rely on UPCOM quality as our larger machines in a new smaller package. The UP-Drill installs microcable and its versatility saves your money. The design of the UP-Drill provides for quick and easy component changes for different cable or duct sizes. Its compact size and portable maneuverability make the UP-Drill is ideally suited for either outside or in-building use. The UP-Drill uses compressed air to install the cable. The drive roller, powered by most types of cordless drills (not included), control the microfiber as it is propelled into the microduct. UP-Drill machine takes name from drilling tool because you do not need to use a motor with this machine you only need to buy a standart drilling tool like Bosch, Dewalt.

TECHNICAL PROPERTIES

Controlled by	Technician.
Duct Diameter	Changeable by tools
Cable diameter	1mm to 5 mm.
Needed air	Minimum 12 bar - 1 metercup / minute.
Dimensions	31cm*25 cm*32cm
Weight	10 kg
Cable installing velocity	Changeable by the drilling tool
Direction	Forward and backward
➤ Cable pusher rolls can change easily.	
➤ One air inlet from compressor withquick connection	
➤ Quick connection part is givingwith machine.	
➤ Easily changeable for different cables	
➤ Easily changeable for different ducts.	

EC DECLARATION OF CONFIRMITY

UPCOM TELEKOMUKASYON BİLİŞİM TEKNOLOJİLERİ URUNLERİ SAN. VE TIC. LTD. STİ.

Produced by KOSMAK

According to Machinery Directive 2006/42/EEC
Declaration:
Herewith we declare under our own responsibility that the products
designated below
Products:
Fiber optic cable blowing machine
are manufactured in accordance with the EC Directives
Directives:
Managing Director
Machinery Directive 2006/42/EEC including their amendments.
Harmonised Standards: TSEN ISO 12100, EN60204-1
Istanbul, 2018
